Documentation for sky.html interface

Please open the page in the last version of Google Chrome browser

Provided functionality

Clicking on the link "The future is now" will open up a lightbox with a short YouTube video to start playing automatically. Clicking outside of the lightbox or on the X button (top right) will close the lightbox.

Pressing "F" on the keyboard will change the background color of the Movies block. Pressing "F" yet again will revert it back.

Pressing "M" on the keyboard will change the background color of the middle round block. Pressing "M" yet again will revert it back.

Pressing "D", "E", "V" simultaneously on the keyboard will change all three images to another one. Pressing "D", "E", "V" yet again will revert it back. Hovering over each image will scale them.

Left map block is a customized google map.

Bottom message block. Upon the page load, the message appears with the typewriter effect.
